SUBJECT INDEX

- Ab-ridge count, in schizophrenia, 459-461
 Acne patients, body dysmorphic disorder in, 415-419
 AD, *see* Alzheimer's disease
 ADHD, *see* Attention deficit-hyperactivity disorders
 Adolescents, suicidal, comparison of life events of those with
 major depression and borderline personality disorder,
 277-283
 Adult separation anxiety disorder, 147
 Adult Separation Anxiety Questionnaire
 compared with ASA-SI, 146-153
 development of, 148-151

 Adult Separation Anxiety Semistructured Interview, compared
 with ASA-SI, 146-153
 Affect regulation, in maltreated children, 388-395
 Affective disorder, and PTSD, treatment with sertraline, 360-
 369
 Affective negative symptoms, and experience of basic emotions
 in schizophrenia, 303-310
 Affective symptoms, bipolar, structure in young adults, 110-116
 African Americans, distribution of personality disorders, 485, 486
 Age
 see also Adolescents; Children; Elderly

Age (*Continued*)

- and stress process in recent immigrants, 135-141
- and treatment seeking in OCD, 165, 166
- Aggression, in case of Mobius syndrome, 463-465
- Aggressivity, association with 5HTT polymorphisms in Iowa Adoption cohort, 88-101
- Agoraphobia, comorbidity with OCD with and without schizophrenia, 314
- Alcohol
 - abuse, and OCD, treatment seeking in patients with, 166
 - severity and duration of use associated with alexithymia, 349-352
- Alcoholics, male, alexithymia in, 349-352
- Alcoholism, familial, correlation with kleptomania, 440
- Alexithymia
 - in male alcoholics, 349-352
 - stability in somatization, 466-471
- Alzheimer's disease
 - concordance study for cognitive impairment in elderly female-female twins, 117-120
 - interactive computer training as therapeutic tool in, 213-219
- Amnesia, and dissociative symptoms, in Dutch concentration camp survivors, 65-69
- Androgens, changes in levels during pregnancy and postpartum, 237
- Anger, in schizophrenia patients, 303-310
- Anhedonia, in schizophrenia patients, 303-310
- Anorexia nervosa, binge eating/purging, Novelty Seeking score in Japanese patients with, 142-145
- Antidepressants
 - communication and adherence in Hispanics, 198-204
 - prescribed in outpatient psychiatry clinic for BPD, 457
- Antipsychotics, prescribed in outpatient psychiatry clinic for BPD, 457
- Antisocial personality disorder
 - and BPD in men, 284-292
 - frequency in unipolar and bipolar affective patients, 30
- Antisocial personality, and OCD, treatment seeking in patients with, 166
- Anxiety
 - in BZD users in Greek prison, 409-414
 - role in development of somatization, 466
- Anxiety disorder
 - following child loss, 396-403
 - in persons responding to participate as normal controls in behavioral research studies, 83-87
 - and PTSD, treatment with sertraline, 360-369
- Anxiety syndromes
 - application of western personality models to eastern European patients, 51-59
 - and psychoses, personality traits differentiate from axis I mood, 58-59
- ASA-27, *see* Adult Separation Anxiety Questionnaire
- ASAD, *see* Adult separation anxiety disorder
- ASA-SI, *see* Adult Separation Anxiety Semistructured Interview
- Attention deficit, association with 5HTT polymorphisms in Iowa Adoption cohort, 88-101
- Attention deficit-hyperactivity disorders, association with 5HTT polymorphisms, 88-101
- Attention deficit-hypersensitivity disorder, in children and adolescents with bipolar disorder, 184-189
- Autism, in Mobius syndrome, 463
- Avoidant personality disorder
 - and ethnicity, 483-491
 - frequency in unipolar and bipolar affective patients, 30
- AVPD, *see* Avoidant personality disorder
- Axis I disorders, comorbidity, compulsive sexual behavior, 370-380
- Axis I mood, personality differentiates from anxiety syndromes and psychoses, 58-59
- Axis II disorders, comorbidity, compulsive sexual behavior, 370-380
- Barratt Impulsivity scale, correlation with IVE-7, 381-387
- BD, *see* Bipolar disorder
- BDD, *see* Body dysmorphic disorder
- BDEPQ, *see* Benzodiazepine Dependence Questionnaire
- BDI, *see* Beck Depression Inventory
- Beck Depression Index, evaluation of life events between suicidal adolescents with major depression and borderline personality disease, 277-283
- Beck Depression Inventory
 - schizophrenia with and without OCD, 313
 - study of psychogenic excoriation, 256-261
- BED, *see* Binge eating disorder
- Bendep-SRQ, *see* Benzodiazepine Dependence Self-Report Questionnaire
- Benzodiazepine, evaluation of Bendep-SRQ in discontinuation trial, 247-255
- Benzodiazepine Dependence Questionnaire, 247
- Benzodiazepine Dependence Self-Report Questionnaire, evaluation in benzodiazepine discontinuation, 247-255
- Benzodiazepine Withdrawal Symptom Questionnaire, 247
- Benzodiazepines
 - characteristics of patients receiving in Greek high-security prison, 409-414
 - prescribed in outpatient psychiatry clinic for BPD, 457
- Beta-endorphins, changes in levels during pregnancy and postpartum, 237
- Binge eating disorder, patients before gastric bypass surgery, 428-434
- Bipolar affective disorder, frequency of comorbid personality disorders in, 28-34
- Bipolar disorder
 - changes of insight in manic episodes, 404-408
 - characteristics of first versus multiple suicide attempters, 15-20
 - externalizing disorders in children and adolescents with, 184-189
 - impact of psychosis on morbidity, 263-269
- Bipolar II depressive mixed state, useful definition, 21-27
- Bipolar II disorder
 - link with atypical early-onset unipolar depression, 102-109
 - treatment, 25
- Bipolar symptoms, assessment in young adults, 110-116
- Body defects, imagined in acne patients with BDD, 417
- Body dysmorphic disorder
 - in acne patients, 415-419
 - as part of OCD spectrum disorders, 317-323
 - avoidance behaviors, 60-64

- Body dysmorphic disorder (*Continued*)
 axis I comorbidity in, 270-276
 in college students, 60-64
 sociodemographics features of patients, 60-64
 time-consuming repetitive behaviors, 60-64
 underdiagnosis, 60-64
- Body image, *see* Body dysmorphic disorder
- Borderline personality disorder
 and ethnicity, 483-491
 frequency in unipolar and bipolar affective patients, 30
 and gender, longitudinal study, 284-292
 in major depression, characteristics, 35-43
 with major depression, comparison of patients with other depressed patients, 41
 medication for in outpatient psychiatry clinic, 454-458
- BPD, *see* Borderline personality disorder
- BPRS, *see* Brief Psychiatric Rating Scale
- Brain
 cerebral abnormalities in schizophrenia, 459-461
 cerebral asymmetry as neural basis of language, 9-10
 changes of in schizophrenia patients, 459-461
 hemispheric dominance, relationship to schizophrenia, 7-14
 X-Y chromosome theory for asymmetry, 10-11
- Brief Psychiatric Rating Scale, assessment of depression in Kraepelinian schizophrenia, 1-6
- Brief Syndrome Inventory, validity of self-reported psychotic psychopathology on, 220-226
- BSI, *see* Brief Syndrome Inventory
- Bulimia
 characteristic temperament and character profile of women with, 74-75
 comorbidity with OCD with and without schizophrenia, 314
 family dynamics in, 70-77
 and OCD, treatment seeking in patients with, 166
- Bulimia nervosa
 purging type, Novelty Seeking score in Japanese patients with, 142-145
 role of temperament and character factors, 70-77
- BWSQ, *see* Benzodiazepine Withdrawal Symptom Questionnaire
- BZ, *see* Benzodiazepine
- BZD, *see* Benzodiazepines
- Catatonia
 factor analysis of rating scale, 472-482
 four-factor symptom structure versus two symptoms subtypes, 472-482
- Catatonia Rating Scale
 factor analysis of, 472-482
 instrument contents, 477-481
- Caucasians, distribution of personality disorders, 485, 486
- CD, *see* Conversion disorder
- Center for Epidemiologic Studies-Depression Scale, in young adults, 110-116
- CES-D, *see* Center for Epidemiologic Studies-Depression Scale
- CGI, *see* Clinical Global Impression
- Character fragility, in female bulimic patients, 74-75
- Child loss, depression and response styles following, 396-403
- Child Suicidal Potential Scales, assessment of ego defenses in maltreated children, 388-395
- Childhood Sexual Abuse Questionnaire, evaluation of life events between suicidal adolescents with major depression and borderline personality disease, 277-283
- Childhood trauma, in histories of patients with dissociative disorder, 328
- Children
 maltreated
 affect regulation in, 388-395
 defense mechanisms in, 388-395
 ego defenses in, 388-395
 neglected, ego defenses in, 388-395
 non-maltreated, ego defenses in, 388-395
 physically abused, ego defenses in, 388-395
- Claustrophobia Questionnaire, assessment of psychological reactions of panic disorder patients during MRI, 190-197
- Clinical Global Impression, 184
- Clinician-Administered PTSD Scale, comorbidity in PTSD, 360-369
- CLPS, *see* Collaborative Longitudinal Personality Disorders Study
- Cognition, investigation of in schizophrenia, 331-340
- Cognitive impairment, concordance using elderly female-male twin pairs, 117-120
- Collaborative Longitudinal Personality Disorders Study, 284-292
 assessment of personality disorders and ethnicity, 483-491
- Comorbidity
 agoraphobia and OCD and schizophrenia, 314
 affective and anxiety in PTSD, 360-369
 kleptomania and other impulse control disorders, 440
 major depression and borderline personality disorder, 35-43
 panic disorder and OCD and schizophrenia, 314
 personality disorders in bipolar and unipolar affective disorder, 28-34
- PTSD, 360-369
 and SUD, 180
 psychiatric
 and compulsive/impulsive traits in compulsive sexual behavior, 370-380
 in kleptomania patients, 437-441
- Compulsions, *see* Obsessive-compulsive disorder
- Compulsive sexual behavior, comorbidity
 axis I and II disorders, 370-380
 psychiatric and compulsive/impulsive traits, 370-380
- Compulsive/impulsive traits, comorbidity, compulsive sexual behavior and psychiatric traits, 370-380
- Computer training, interactive, therapeutic tool in Alzheimer's disease, 213-219
- Concentration camp survivors, Dutch, dissociative symptoms and amnesia in, 65-69
- Conduct disorder
 association with 5HTT polymorphisms in Iowa Adoption cohort, 88-101
 in children and adolescents with bipolar disorder, 184-189
- Controlled Oral Word Association Test, investigation of cognition in schizophrenia, 331-340
- Conversion disorder, in Turkish inpatients with dissociative disorders, 324-330

- Cooperativeness, assessment using western personality models on eastern European patients, 51-59
- Corporeality, sense of in schizophrenia, 126-127
- CRS, *see* Catatonia Rating Scale
- CSB, *see* Compulsive sexual behavior
- CSEQ, *see* Childhood Sexual Abuse Questionnaire
- CSPS, *see* Child Suicidal Potential Scales
- Davidson Trauma Scale, comorbidity in PTSD, 360-369
- Davidson Trauma Scale, validation and application of SPAN, a shorter version of, 78-81
- DD, *see* Dissociative disorders
- DDIS, *see* Dissociative Disorders Interview Schedule
- Defense mechanisms, immature, in maltreated children, 388-395
- Dementia, *see* Alzheimer's disease
- Dependent personality disorder, frequency in unipolar and bipolar affective patients, 30
- Depersonalization, 122
- Depression
 - application of western personality models to eastern European patients, 51-59
 - association of neuroticism and self-esteem with, 169-176
 - bipolar, *see* Bipolar affective disorder; Bipolar disorder; Bipolar II disorder
 - in BZD users in Greek prison, 409-414
 - chronic, psychosocial predictors, 47-48
 - demographics in recent immigrants, 424
 - and employment, 48
 - in Kraepelinian schizophrenia, 1-6
 - major, borderline personality disorder in, characteristics, 35-43
 - and mania, assessment of both with same test items in young adults, 110-116
 - and OCD, treatment seeking in patients with, 166
 - postpartum, endocrine factors in etiology of, 234-246
 - recurrent unipolar, evidence to combine with bipolar II disorder, 102-109
 - and response styles following child loss, 396-403
 - role in development of somatization, 466
 - trajectories in recent immigrants, 420-427
 - treatment-resistant, functioning and prediction of response to treatment, 44-50
 - unipolar, atypical early-onset, link with bipolar II disorder, 102-109
- Depressive disorders, comorbidity with OCD with and without schizophrenia, 314
- Depressive mixed state
 - bipolar II, useful definition, 21-27
 - comparison with MDE in unipolar disease, 21-27
 - with three or more concurrent hypomanic symptoms, association with bipolar II diagnosis, 21-27
- DES, *see* Differential Emotions Scale
- Desautomatization of motor action, in schizophrenia, 127
- Diagnostic Interview for Children and Adolescents-Revised, 184
- Diagnostic Interview for DSM-IV Personality Disorders, Spanish-language version, development and evaluation of, 154-161
- Diagnostic Interview Schedule, version III, use in OCD study, 163
- DICA-R, *see* Diagnostic Interview for Children and Adolescents-Revised
- Dickman's Dysfunctional Impulsivity Scale, correlation with IVE-7, 381-387
- Differential Emotions Scale, study of affective negative symptoms and basic emotions in schizophrenia, 303-310
- DIS, *see* Diagnostic Interview Schedule
- Discontinuity of self-awareness, 127-129
- Disgust, in schizophrenia patients, 303-310
- Dissociative disorder
 - childhood trauma histories of patients with, 328
 - sociodemographic and clinical characteristics, 327
 - in Turkish inpatients with conversion disorder, 324-330
- Dissociative Disorders Interview Schedule, evaluation of Turkish inpatients with conversion disorder and dissociative disorders, 324-330
- Dissociative Experience Scale, evaluation of Turkish inpatients with conversion disorder and dissociative disorders, 324-330
- Dissociative symptoms, and amnesia, in Dutch concentration camp survivors, 65-69
- DMX, *see* Depressive mixed state
- Drug abuse, and OCD, treatment seeking in patients with, 166
- Drug addiction, in BZD users in Greek prison, 409-414
- Drug use, illicit, in BZD users in Greek prison, 411
- DSM-III-R diagnosis, in persons responding to participate as normal controls in behavioral research studies, 83-87
- DTS, *see* Davidson Trauma Scale
- Eating Disorders Examination—questionnaire version, assessment of morbidly obese patients before gastric bypass surgery, 428-434
- Eating disorders
 - and BPD in women, 284-292
 - Japanese patients, temperament and character of, 142-145
 - in persons responding to participate as normal controls in behavioral research studies, 83-87
 - see also* Anorexia nervosa; Bulimia nervosa
- Eating-related psychopathology, assessment of patients before gastric bypass surgery, 428-434
- ECQ, *see* Emotion Control Questionnaire
- Ego defenses, maltreated versus non-maltreated children, 388-395
- Elderly, *see* Alzheimer's disease
- Emotion Control Questionnaire, study of affective negative symptoms and basic emotions in schizophrenia, 303-310
- Emotional distress, in recent immigrants, 135-141
- Emotions, basic, experience with and without affective negative symptoms in schizophrenia, 303-310
- Employment, and depression, 48
- Endicott Work Productivity Scale, 178
- Endocrine factors, etiology of postpartum depression, 234-246
- Erratum, 435
- ESRS, *see* Extrapyramidal Symptoms Rating Scale
- Estradiol
 - changes in, role in postpartum depression, 234-246
 - treatment, postpartum depression, 241
- Ethnicity
 - associated personality disorders, 483-491
 - and gender, personality distribution by, 487

- Ethnicity (*Continued*)
 issues, adherence to antidepressants, 198-204
 Evolution, role in etiology of schizophrenia, 8-9
